# BASEBALL MATTERS **GETTING RATHER HOT**

"Father" Dubei Has Something to Say on Eureka Declaration.

SALT LAKE PLAYERS WILL STICK WITH MAGNATE

President Shepard Has Issued Notice of Meeting to Finish Organization.

Clouds of a threatening nature are again opreading over the baseball horizon in regard to the proposed State league proposition, owing to the stand taken by the Eureka bunch, in dictating the name that the local team shall work under during

They object to the name Dubel Tallbut it has always been the intention of the Salt Lake crowd to be known as the "Dubei Salt Lakers." and this will go through, no matter what is said, ac-cording to the members of the club.

Dubei Makes Statement.

Dubei Makes Statement.

Mr. Dubei said yesterday. 'I do not understand why such an objection should come up. I am purting up every cent of the money for the equipment of the team, have secured the former P. K. L. league grounds, and players for the nine, not another business man in the city has advanced any money on the project, and I do not see why there should be any demur over the use of my pame in connection with the club.

I like baseball, and want to see games at Walker's field this year. There is no chance for any big league ball in the city this year and we must have some good clean sport in the National game. The public wishes it and I simply took up the matter to give them the sport.

'My players are sure of my backing them in every way, and will stick by me through any controversy which may arise. 'There has been nothing said by any of the other proposed members of the league-Ogden, Park City, Prove, etc.—regarding the use of the word Dubel' in connection with my team, and it seems rather odd to me that there should be any kick coming from Eureka.'

Players Are With Promoter.

Players Are With Promoter.

One of the prominent players of the toam, who signed his contract yesterday, said: "We are with Mr. Dubel from start to finish. He was the only fan that came to the front this spring with a good proposition for a State league and guaranteed the money to back a home team. He has been strictly on the level with the boys and is conducting the preliminary proceedings on businessilike methods. You can say from me that we will have a team known as the 'Dubel Sait Lakers, no matter what criticism may be made, and that if others don't like us we will run independent of any organization. Mr. Dubel has the option on Walker's field, and also on the Sait Palace grounds, and all the big games to be played in this city this summer will be played at these two places.

Father of New League.

"He was the father of the proposed league, and it has been due to his earnest efforts that the matter has come into such prominence, and it would be poor policy to let it drop when it is so near

policy to let it drep when it is so hear culmination.

A meeting of the Salt Lake players will be held at Dubel's office this evening at 7.30 o'clock, and a large attendance of ball fighters is expected.

President Harrison O. Shepard, when asked his opinion on the question which has arisen, stated that he knew nothing whatever about it, and had no suggestions to make except that it would be the best thing for the representative of the clubs willing to enter the new league to get together and adjust whatever differences they might possibly have, frame up a constitution and by-laws and start the game off right.

President Shepard Will Call Meeting. President Shepard Will Call Meeting.

He has written to the clubs concerned, proposing a meeting to be held in Salt Lake a week from tomorrow, at which all affairs appertaining to the organization may be straightened out and a schedule arranged Castleton Going East.

Roy Castleton, the clever southpaw twirler of this city and a member of last year's Ogden team, after receiving numer-ous offers from Eastern clubs, has finally decided to take a chance for a baseball career and will leave for that part of he country April 5, severing his connec-ion with the Utah Light and Railway

Win Ferrin for Umpire.

Win Ferrin, the popular baseball player and umpire in last year's Pacific National league, is being "boosted" for an official knight of the indicator for the State league and should have no trouble in landing as he is one of the best men in that capacity who ever stepped on the local diamond, and knows the game thor-

## AMERICANS IN LONDON JAIL

Alleged Mining Swindlers Awaiting Trial for Conspiracy.

Trial for Conspiracy.

LONDON, March 17.—Franklir Everhart and Harry S. Simmons, Americans, who were remanded on March 6, charged with conspiring to defraud in connection with the Mining Securities and Investment corporation, limited, were again remanded at the Guild, Hall Police court today after taking the evidence of printers regarding the defendants alleged proposals to print forged signatures on fraudulent certificates of LaChivia Mining stock.

Treasury Attorney Muir said that he hoped officials of the LaChivia company would be present at a future hearing to testify to attempts at similar frauds in New York in January, 1965.

#### TREMENDOUS COAL OUTPUT

Value of Pennsylvania Product Last Year Is \$141,879,000

washington, March 17.—The production of Pennsylvania anthracite coal in 1865, as reported to the United States Geological Survey, was the largest on record, amounting to 99,338,152 long tons, valued at \$141,879,660.

The production in 1904 was 65,315,490 long tons.

## ELECTIONS IN RUSSIA

Radical Element Change Tactics and Will Participate

MOSCOW, March 17.—There is a continued fear here of a renewal of the strikes. The radical elements have changed their tactics and, ceasing to advocate armed resistance, have decided to participate in the elections.

Workmen Refuse to Vote. KHAROFF: Russia, March 17.—The workmen in 22 out of 37 factories here have declined to participate in the elec-

Railroaders Select Delegate.

MOSCOW, March 17.—The Constitutional Democrats are developing strength at the elections. The railroad men re-elected a delegate, but refused to give his name to the authorities until he was guaranteed immunity from arrest.

## GIRL STRIPPED AND TORTURED BY POLICE

00

Daughter of a Russian General Horribly Treated by Her Prison Guards.

ST. PETERSBURG, March 17.—The case of the daughter of Gen. !smallovich, who was condemned to death March 2, her sentence later being commuted to imprison-ment for life, has created a sensation simhar to that caused by Mile Spiridonovo, the 17-year-old girl who shot M. Luzbnoffsky, chief of the secret police of Tamboff, who snuzgled a letter out of her-prison describing the manner in which she had been freated.

Mile Izamilovich has also succeeded in sending out a letter from her prison.

Girl Horribly Treated.

It was published today and describes her horrible treatment after the attempt to kill the governor of Minsk, as a result of which her accomplice. Ivan Kulkanoff was executed.

Miss Ismailovich says the police kicked

Miss Ismailovich says the police kicked her into insensibility and subsequently at the police station tore off her clothes, sub-jected her to indignities, beat andscursed her, spat in her face and struck her with such force on the side of her head that her car drum was broken. A local paper today printed statistics showing that 25 executions occurred in Russia during the month of January.

#### TO USE TELEPHONES

Telephone System of Its Own to Be

Established on Harriman Lines. Established of the wake of the re-port that the entire Harriman system is to be equipped with the electric block signal ryz-tem, comes now information to the effect that orders have been based for the construction of a great independent telephone system, which will connect every station along the overland outs. The report is to the effect that tele-shone communications will be established be-

To Facilitate Train Dispatching.

To racilitate Train Dispatching.

The construction of this independent telephone system is primarily for the purpose of facilitating the work of dispatching trains. At the present time between telegraph stations along the line are often from two to four billed sidings, where no telegraph offices are stationed At each of these a telephone box will be installed and dispatchers can communicate with train crews at every station and iding along the line.

Special Pole Line.

Special Pole Line.

The telephone wires will not be strung on the same poles now used by the telegraph wires, as this would materially interfere with talking, but instead a separate pole line will be constructed the entire length of the line on which will be strung the telephone wires. This pole line will be made unusually strong and is expected to remain intact when the telegraph wires are broken down during heavy storms. Thus the road can dispatch trains by telephone when its entire telegraph service is denormalized. Dispatching Districts.

The Wyoming division of the Union Facific has been divided into three telephone dispatching districts, so that less confusion will result in transmitting messages over the phone lines. One district extends from North Platte to Sidney, the second from Sidney to Rawlins and the third from Rawlins to Green River.

Relieve Telegraph Department. The telephone system will be long-distance ervice; the wires will be of the finest and trongest metallic circuit variety, and will be f great use when officials at division or district eminals desire to converse with suboplinates tany point along the division, thus facilitating the work of the operating department and ing the work of the operating department an relieving the congestion in the telegraph de-partment.

#### HARRIMAN GETS CONTROL.

Southern Pacific President Buys Los Angeles Interurban System.

LOS ANGELES Cal, March 17.—Official confirmation of recent runnors that E. H. Harriman had gained control of the Los Angeles Pacific electric interurban system is found in the official record of a meeting of the loard of directors and a stockholders' meeting of that company just filed with the Country Clerk.

Bonds Ave Voted

Bonds Are Voted.

The record states that the meeting was called 'to vote upon the proposition to create a bonded indebteness in the sum of \$12,50,600, of which sum \$5,000,000 was to be used for refunding purposes, \$2,500,000 for the payment of existing obligations, and the remainder for improvement and extension."

Harriman Has Bought.

The stockholders' meeting was held March I, and at that time it developed that Epes Randolph, representing E. H. Harriman, it is said, voted a controlling interest in the capital stock of the company. Today it was declared semi-authorizatively that the Harriman interest has bought the system in its entirety. The lines comprised in the transfer include approximately 100 miles of street railway in operation between Los Angeles and many substrain and Leach towns.

Harriman Equals Huntington.

The acquisition of this system, of which there appears to be no doubt in local financial circles, gives the Southern Pacific president an electric system in Southern California almost equal in milesgo to that controlled by H. E. Huntlette.

COME WEST, YOUNG MEN.

There Is Work in Plenty Here for You on Railroads.

You on Railroads.

CHICAGO, March 17.—Western railroads are facing a labor famine. Twenty-five thousand men are needed in the Northwestern and southwestern States to build the roads that are already under way, and it is estimated that before the first of June more than twice that number will be required.

There never has been such great activity in railroad building in the West as at present, and the visible supply of labor in that part of the country has been exhausted.

Railroad contractors have been able to resume work earlier than usual on account of the early spring, and they are making strenuous efforts to get men to go West for this work.

work.

Ten thousand men are needed by the Western Pacific, the new Gould line to California,
and they are offering from \$2 to \$2.25 a day for
unskilled labor, with the chance of Steady
work until the celd weather sets in again next

Spring Medicine

The best is Hood's Sarsaparilla. It is the best because it does the most good.

While it makes the blood pure, fresh and lively, it tones the stomach to better digestion, creates an appetite, stimulates the kidneys and liver, gives new brain, nerve and digestive strength.

An unlimited list of cures-40,366 testestimonials in 2 years-proves its merit.

SPECIAL.—To meet the wishes of those who prefer medicine in tablet form, we are now putting up Hood's Sarsaparills in chocolate-coated tablets as well as in the usual liquid form. By reducing Hood's Sarsaparills to a solid extract, we have retained in the tablets the curntire properties of every medicinal ingredient.

Sold by druggists or sent by mail. 100 does one dollar. C. I. Hood Co. Lowoll. Mass.

Interesting Book Review.

Interesting Book Review.

Mrs John Hughes gave a very interesting book review on the 'Resurrection of Miss Cynthia,' one of the late books by Florence Morse Kirgsley. The story deals with the life of a little old spinster who thinks she has inherited the dread discase of consumption from her New England ancestors and is told by the family physician that she has but one year to live. With this idea in mind her whole life changes, and from the little old maid she developes into the lovable and helpful woman. Mrs. Hughes gave a number of selections from the book in a delightful manner. The next megting of the section will be in April, the programme to be announced later.

### EARNINGS OF STEEL TRUST

Net Earnings in 1905 Increased \$46,-611,136 Over Those of 1904.

NEW YORK, March 17.—The pamphlet f the United States Steel corporation for the year ending December 31 shows that the company's gross receipts were \$55, 331,735, an increase of \$140,926,306. The net earnings were \$119,787,658, an increase of \$46,611,136.

After payment of interest and dividends, charges for depreciation and appropriations for new construction and improvements there, remained a surplus for the year of \$17.055,815, an increase of \$12,017,-962.

Summary of the Report.

The improvement in the iron and steel business which became evident in the latter part of 1904, and to which reference was made in the last annual report, was generally maintained throughout the year of 1905. The tonnage of unfilled orders on the books on December 31, 1905, was 7,006, 1006 tons of all kinds of manufactured products, in comparison with 4,006,205 tons at the close of 1904.

NAVAL CADETS APPOINTED

President Names Six Principals and Alternates at Large.

WASHINGTON, March 17.—The President has announced the following appointments as principals and alternates at large at the Naval academy, Annapolis, for the year of 1906: Alternates.
John B. Sebres.
Gifford Cutler
Paul B. Orchard.
Beverly C. Dunn.
Robert E. Carmody Principals. Wadleigh Capebart Fred Rogers, Jr. Herbert Hein, Louis E. Fagin, John W. Forney, James McD. Cresap

These are the sons of officers of th army, navy or marine corps.

Favors Lock Canal

WASHINGTON, March 17 - Frederick P Stearns, a Boston engineer, who was a member of the board of consulting engineers that reported on the type of canal feasible to be constructed across the 1sthmus of Panama, advocased the canal lock project before the Senate Committee on Interoceanic Canals today

Immigration Inspector Resigns. WASHINGTON March 17.—The Secretary of Commerci and Labor today accepted the resignation of Marcus Braun as immigrant in-spector at Quebec. The letter of resignation was not made public.

The Utah State Board of Sheep Com-missioners are receiving letters of approval from sheep breeders quite generally over the State of the action of the board taken several weeks ago in re-

Commissioners Meets Their

Hearty Approval.

quiring all sheep in Utah to be dipped this spring. The approval comes from even a wider region than that included within the State boundaries. A letter of recent date has been received by Arthur A. Callister, sec-retary of the board, from the secretary of the State Board of Sheep Commission-ers of Wyoming. The letter in part says:

What Wyoming Officers Say.

What Wyoming Officers Say.

It is with pleasure that this office exchanges copies of rules and regulations with Utah. The matter of seab erulication is one in which we are mutually interested. Wyoming is now practically clean, so clean, in fact, that it has been found advisable to quarantine against those States in which there is considerable each, and from which shipments of sheep and bucks must be watched closely. In order to prevent the reinfection of our abeep, I sincrely hope your orders I and 2 will meet with the hearty co-operation of your fleckmasters, for they are the ones who will derive the benefits in the end. With one or two years' effective work in your State, you should be practically cleaned up. When this has been accomplished. Wyoming will gladly raise the emtargo on Utah sheep.

Building Dipping Vats.

It is believed that a compliance with the recent order of the board as to dipping the flocks will be general and complete, and will produce the most substantial results in eradicating the disease of scab of any attempt of the kind yet made. Reports are being received showing that vats for dipping the animals are being built by a community of interests of sheep breeders in many localities.

Will Raise Quarantine.

Will Raise Quarantine.

When these orders have been complied with the quarantine against Utah sheep by the railroads will be practically raised. This will mean much to shippers, as heretofore the cars in which Utah sheep have been shipped have borne a card "Exposed sheep." The result was that buyers on the markets have taken advantage of this condition and compelled the owners to accept prices below what the sheep were really worth.

Inspectors Appointed.

Inspectors Appointed.

Inspectors for seeing that these orders are enforced have been appointed throughout the State as follows: Thomas Thomas Grouse Creek, Joseph Tarbet, Logan William Johnson, Randelph: Martin McFarland, West Weber, Joseph W. Thomas, Heber, C. R. McBride, Toosle; W. G. Orme, Nephi, Hans Esklund, Scipic, H. E. Lisonbee, Burbank, W. M. Lyman, Parowan, H. T. Atkin, St. George, Jonathan Heaton, Ranch, R. W. Sevy, Panguitch: David Collings, Monroe, N. T. Nyborg, Mt. Pleasant, W. R. Yates, Lehl; Alex Pace, Colton, Soren Hansen, Castledaie, Williard Pace, Log. A. A. Taylor, Moab J. S. Hacking, Vernal; R. S. Achurch, Trout Creek, Heber A. Smith, Draper.

Rogers Is Cherokee Chief.

WASHINGTON, March 17.—Frank J. Boudinot of the Cherokee Indian nation, who called on the President yesterday with a view to settling the disputed chiefship of the Cherokees, and who was referred by the President to Indian Commissioner Leupp, was informed by the latter today that Chief Rogers, under a decision rendered by the department last December, is recognized as chief of the Cherokees.

WASHINGTON, March 17.—Representatives Calder, Waldo and Fitzgerald of New York, and Representatives Knowland, Neednam and Gillett of California appeared before the House Committee on Naval Affairs today to urge the appropriation of an additional \$500,000 for the construction of colliers to be built at the Brooklyn and Mare Island yards.

will follow the Snoqualmic River valley or

Anti-Hazing Bill.

WASHINGTON, March 17.—The House committee on Naval Affairs today authorize the auth-committee headed by Representative Editor Joins College Faculty.

CAMBRIDGE, Mass. Masch 17.—Among the announcements of appointments to the How and faculty, the most important is that of Biles Perry, editor of the Atlantic Monthly, as professor of English literature. His dutley are to begin March 1, 1897. THE VALUE OF CHARCOAL.

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that char-coal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose. Charcoal is a remedy that the more

you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system. Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectually clears and im-proves the complexion, it whitens the teeth and further acts as a natural and

eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels, it disinfects the mouth and throat from

the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with

The daily use of these lozenges will soon tell in a much improved condition of the general health, better com-plexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but, on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I ad-vise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat: I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation yet I believe I get more and better characteristics. coal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tab-lets"

### FLOCKMASTERS OF UTAH EVOLUTION OF DRESS WILL DIP THEIR SHEEP DETAILED BY WOMAN

Action of State Board of Sheep Interesting Paper on This Subject Is Read by Mrs. Kidder.

> The regular meeting of the Current Event Section was held Friday aftertion at the Ladies' Literary club. Mrs. Kidder gave a very interesting paper on the Evolution of Dress. Mrs. Kidder said the Evolution of Dress. Mrs. Kidder said as an introduction that the purpose of the paper was not to go so far back as to describe the costumes worn by Eve. In a graphic manner the various modes of cress were discussed from the hoops and manner of dressing the hair to represent a waterfall to the trousseau of the late White House bride. In the early eighties scarlet was considered the most fashlonable and durable color, and was worn at court as well as in the cottage. Samuel Adams when visiting the English Court carried one of these cloaks, and no youth of the old New England days was considered ready for the social season unless a crimson doublet was in his wardrobe. In those days blue was considered a color only fit for the servants and therefore distained by those of royal birth. In 1785 the necessary button-hole of today was but an ornament, being bound with gold thread and kid.
>
> In conclusion it was of interest to hear that the wedding gown worn by Mrs. Longworth was designed by a Frenchman. The old man and his daughter live in a tiny garret in one of the poor districts of the city and in order to carn a living he cesigns exclusive patterns for a large company. When asked way his work had not been heard of before he replied that his identity had been lost in the comas an introduction that the purpose of
